

Promise Scholar of the Quarter

Over 1,200 Wabash County students in 4th-8th grade are preparing now to receive training and education beyond high school!

By doing their schoolwork and saving money this school quarter, they have earned more than \$33,000 for their Community Foundation Promise Scholarship accounts. The future is bright for these students. Thank you to their families and teachers for jumpstarting their future!

Congratulations to the following Promise Scholarship students who were nominated as the Promise Scholar of the Quarter by their teachers.

This award is given each quarter to one Promise Scholar per grade level at each Wabash County school for academic skills, persistence, positive peer leadership, good citizenship, or personal responsibility at school. These students received award certificates and Promise Scholar sports bags as well as \$25 in their Promise Scholarship accounts for this honor.
